ANNOUNCING SPEAK OUT!™ OKLAHOMA

If you have been diagnosed with Parkinson disease or related movement disorder, take this short quiz ...

- Do people ask you to repeat?
- Does your voice sound hoarse, scratchy or breathy?
- Does your family say you speak too softly?
- Does your voice fatigue easily?
- Does your voice sound strong on some days, weak on others?
- Do you cough when you eat or drink?

If you answered “yes” to one or more of these questions, let us know and we will help you.

Since Parkinson’s is a progressive disease, maintaining your voice strength and swallowing capability is an ongoing challenge. The Parkinson Voice Project, based in Texas, has combined intense voice therapy with daily maintenance and weekly group therapy and achieved tremendous results. Now it’s our turn to offer this communication breakthrough to those of us north of the Red River.

SPEAK OUT™ OKLAHOMA is HERE!

The Parkinson Foundation of Oklahoma, in affiliation with INTEGRIS Jim Thorpe Rehabilitation, is bringing this exciting program to Parkinson patients throughout our state.

Find out more by contacting INTEGRIS Jim Thorpe Rehabilitation at 405-644-5445 or the Parkinson Foundation of Oklahoma at 405-810-0695 or jim@parkinsonoklahoma.com online.
