

Concerned you're infected with COVID-19?

We are here to help you decide what to do next.

MILD & MODERATE SYMPTOMS

Fever

Cough

Muscle
Aches

Shortness Of
Breath

DON'T VISIT AN EMERGENCY ROOM

AT HOME CARE

Most people won't need to visit a doctor or go to the ER. Staying home & letting the illness run its course is what most people will need to do.

CALL FOR ADVICE

Call your doctor or use a telehealth service like Video Visit or Virtual Visit.

SEVERE SYMPTOMS

Persistent Pain
Or Pressure In
The Chest

Bluish Lips
Or Face

New Confusion
Or Inability
To Arouse

GET CARE RIGHT AWAY

CALL 911

If you or a family member need urgent care.

EMERGENCY ROOM

Visit an emergency room right away.
