In addition to a cardiac catheterization lab and cardiology program, the hospital also features a geriatric mental health unit and a comprehensive radiology department.
The INTEGRIS values can be identified by three simple but very powerful concepts: **Love, Learn and Lead.**

Every year, we care for **tens of thousands of Oklahomans** across the state, in facilities varying in size from INTEGRIS Express Care in Vinita, Okla., to our flagship hospital, INTEGRIS Baptist Medical Center in Oklahoma City. Services range from leading edge heart failure interventions, to our nationally renowned multi-specialty rehabilitation care.

More than 9,500 people are employed by INTEGRIS, and affiliated health providers are located in 50 Oklahoma towns and cities. Hospice services are offered through INTEGRIS Hospice in Miami and Grove as well as at the INTEGRIS Hospice House in Oklahoma City. Collectively, the entities within INTEGRIS maintain **more than 1,500 licensed beds** and our medical staffs include **approximately 1,200 physicians**.

With over 300 access points across the state, approximately 60 percent of Oklahomans live within 30 miles of a facility or physician included in the INTEGRIS organization.

Specialized **Centers of Excellence** provide incomparable care through more than a dozen entities. Excellence in medical care, along with research, staff education, support groups for patients and their families and educational programs for the community allow members of INTEGRIS to achieve the organization’s mission.

**INTEGRIS is a Member of the Mayo Clinic Care Network**

A unique collaboration with Mayo Clinic allows INTEGRIS physicians to work directly with Mayo physicians on complex diagnoses and treatment plans. Patients receive care they need close to home through the combined expertise of two trusted organizations, without additional cost or unnecessary travel. It gives our physicians a new resource to complement the innovative and leading care patients have grown to expect from INTEGRIS.
We believe our mission extends beyond our walls. That is why you see INTEGRIS sponsoring health fairs, wellness screenings, fitness events and scores of other health-related activities across our state.

As a not-for-profit corporation, we are able to invest one hundred percent of any money earned back into our health care system through hiring of world-class physicians, purchase of the latest technologies and construction of the finest health care facilities, as well as programs and services to improve the health and quality of life for all Oklahomans.

Our commitment is not to shareholders, it is to the people of Oklahoma.

INTEGRIS resulted from a merger in 1995 between Oklahoma Health System and Southwest Medical Center in Oklahoma City. It has since grown into the state’s largest Oklahoma-owned health care corporation and one of the state’s largest private employers with hospitals, rehabilitation centers, physician practices, mental health facilities, fitness centers, and hospice and home health agencies throughout the state.

INTEGRIS is a not-for-profit corporation governed by a 15-member board of directors from the worlds of business, medicine and community leadership across the state. Corporate headquarters are located on the campus of INTEGRIS Baptist Medical Center in Oklahoma City. INTEGRIS is managed by President and CEO Bruce Lawrence, with the assistance of senior staff in the areas of physician services, facility operations, strategic services and finance.

In 2016, INTEGRIS PACER Fitness Center in Oklahoma City proudly joined the YMCA OF GREATER OKLAHOMA CITY, to become the YMCA HEALTHY LIVING CENTER – INTEGRIS.
