

Professional Movers, Berger Allied Movers

For comprehensive household moving services and a commitment to quality, look no further than your professional movers at Berger Allied. We are dedicated to making your moving experience stress-free, cost and time-effective. Rest assured, Berger Allied goes the extra mile to ensure your entire relocation experience is a pleasant one.

The movers at Berger Allied focus on responsibility. Before you work with us, we make sure you have a time estimate and a quote for our services. These estimates are similar, but not identical, between homes, which is why we talk to you about your living situation before we name a price. You can reach out to us through our quote form, or book a time for a [virtual moving quote](#). One of our professional movers will discuss the specifics of your move and take time to understand your needs. From there, we can provide a time and cost estimate.

We offer moving services unparalleled among moving and storage companies. With locations across the United States and decades of experience in the industry, we offer safety and convenience regardless of where you're going or how much you need to move. Our nationwide network means we don't need to send truck drivers back after an interstate move, which keeps costs down and helps you save money.

Berger Allied was originally founded back in 1910 as "Berger Transfer" by Carl Berger in Minneapolis, and we have always kept marching forward. Nowadays, we help move 24,000 families every year and maintain a fleet of over 600 vans. Thanks to our experience and our continued investment in improving the company, we can streamline processes and minimize costs that other moving companies struggle with.

Are you looking for some help planning your next move, or do you want to learn more about Berger Allied? The professional movers at our offices are happy to help. Please select your metro area below to learn more about our office and reach out to us.
